Authorization for this examiner's amendment was given in a telephone interview with Attorney Michael L. Dunn on Feb. 22, 2005.

#### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claims 14, 16-36 & 38-44 have been examined. Claim 14 is the only independent claim. It encompasses a dispersion comprising (a) one hydrophobic binding agent, (b) another curing binding agent and (c) a filler with specific mean particle diameter so that the coating formed from the dispersion has a specific water contact angle.

Prior art includes Letoffe (US 4532315), primary reference and Hayashi (US 5328941) & Takahashi (US 6239246) secondary references. Letoffe uses polysiloxane as a binder and a polyacyclosilane as crosslinking agent

Art Unit: 1711

in the composition. The appellants have submitted literature on the siloxanes showing that these polysiloxanes, by their very structure, are incapable of producing a coating with a water contact angle of at least 130. There is consequently no reason to infer that the (claimed) limitation of contact angle is automatically satisfied by composition of prior art. Secondary references fail to compensate for this deficiency.

Above claims are deemed to be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Umakant K. Rajguru whose telephone number is 571-272-1077. The examiner can normally be reached on M-F 9:30 am-6:00 pm.
